EXCEED YOUR VISION

Epson EX51

MULTIMEDIA PROJECTOR

Dynamic and effective.

Ready for action at the office or on the go, the Epson EX51 offers amazing color and image quality. Delivering 2500 lumens of color light output and 2500 lumens of white light output[1], it provides brilliant images in true-to-life color. With native XGA resolution and Epson 3LCD, 3-chip technology, this compact performer ensures razor-sharp detail for flawless presentations. Whatever the application, the EX51 makes it easy with instant, high quality connections. HDMI and USB Plug 'n Play instant connectivity makes setup a breeze. Unlike traditional projectors that only use USB to give you page-up/down control over your presentation (via your mouse), the EX51's USB Plug 'n Play feature allows you to use a standard USB cable to connect to your computer for instant projection.

Brilliant image quality and detail — native XGA resolution up to 1400 x 1050

Super bright and colorful — 2500 lumens color light output and 2500 lumens white light output[1]

Instant setup — HDMI, plus USB Plug 'n Play instant setup from your PC

Epson EX51 MULTIMEDIA PROJECTOR

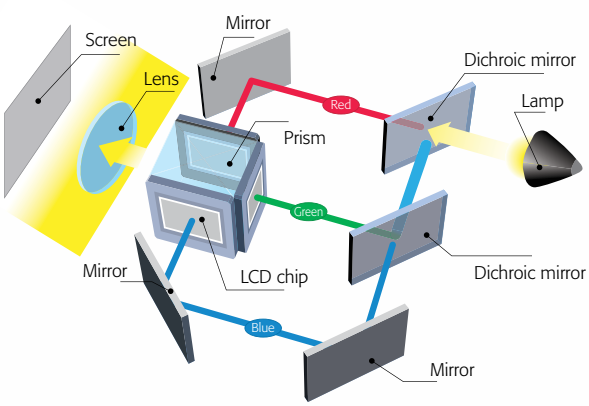
The best-selling projectors in the world.

Epson offers a wide range of high-quality projectors to meet almost any need. Built with image quality and reliability in mind, Epson projectors enhance communication and inspire collaboration, while offering a low total cost of ownership. From ultraportable projectors designed for educational settings to boardroom-ready business projectors, Epson has the model made for you.

3LCD technology — for quality and color that's beyond amazing

Innovative technology with proven reliability

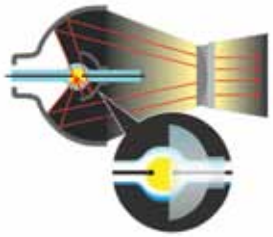
- 3 chips for true-to-life color
- 25% less electricity required per lumen of brightness when compared to 1-chip DLP projectors[2]
- Road-tested reliability from a company with over 20 years of experience



▲ 3LCD, 3-chip technology

Energy-efficient E-TORL® lamp, exclusively from Epson

- Long lamp life lasts up to 5000 hours[3]
- Minimizes both light diffraction and light leakage
- E-TORL lamps maximize your presentation time, while minimizing your costs



▲ E-TORL lamp

▲ Compact and portable design

Eco features

- Energy-efficient 3LCD light engine[2]
- Energy-efficient E-TORL lamp

Brilliant image quality and detail

Resolution defines the level of detail and depth you'll see in a projected image. It's measured as the number of pixels high by the number of pixels wide. The more pixels, the better the image quality.

800 x 600
Meets basic projection needs

1024 x 768
Ensures sharper detail

1280 x 800
Offers the highest quality and is ideal for widescreen (16:10) display

Amazing light output

- 2500 lumens color light output and 2500 lumens white light output[1]
- Ultra bright projector works well in most types of lighting from dimly lit rooms to bright conference rooms
- Long-life E-TORL lamp – exclusively from Epson, provides light output and performance to meet your expectations
- White light output that's measured using ISO 21118 (a more rigid standard than the outdated ANSI lumens rating used by competitive products)

High color light output | Low color light output

Actual photographs of images taken from two competing projectors run in default mode. Price, resolution and brightness (white light output) are the same for both projectors.

USB Plug 'n Play instant setup
